

COOLING TOWER CORROSION PROTECTION WITH DENSO® PETROLATUM (WAX) TAPE SYSTEM

SUITABLE FOR:

- Piping
- Conduit
- Beams & Bracing
- Electrical boxes
- Hangers
- Valves & Flanges
- Sprinkler Systems and Other Components

LONG TERM COOLING TOWER CORROSION PREVENTION FROM WET / DRY CYCLES AND THE ENVIROMENT WITH DENSO PETROLATUM TAPE SYSTEM

Traditional paints and coatings that are used to protect the structural steel and piping for a cooling system can easily fail after a few years. The Denso® Petrolatum Tape System will help provide decades of corrosion prevention.

FEATURES:

- Prevent corrosion due to wet/dry cycles and constant temperature changes
- Needs only minimal surface preparation and no abrasive blasting
- No special training or equipment required to produce a professional looking job
- Easy to apply by hand
- Non-toxic, no VOC's, no disposal problems
- More cost effective than paint
- Easy to inspect and long service life
