

what is **Denso** TAPE?

A cold applied tape which remains plastic over a wide temperature range. It is non-hardening and non-cracking and is highly resistant to mineral acids, alkalis, salts and micro-organisms and highly impermeable to water, water vapour and gases.

...and now
the "techy" bit

Denso TAPE is a non-woven synthetic fibre fabric impregnated and coated with a neutral compound based on saturated petroleum hydrocarbons (Petrolatum) and inert siliceous fillers.

stocked sizes

10 metre rolls
in widths of 50mm 75mm
100mm and 150mm

where can it be used?

Well almost anywhere...

ABOVE
GROUND

BELOW
GROUND

UNDER
WATER

Used extensively for the protection of buried or exposed pipes, rods, cables, valves and metal fittings from corrosion but has many other uses.

other common uses

Protecting copper pipe
under concrete

Helps stop corrosion
on metal pipes.

Helps protect fence
posts from rotting.

Repairing downpipes
and gutters.

Sealing manholes and
allowing easier access.

If you use it for any
other applications then
let us know by email

related products

Denso Paste

For the preparation of metal surfaces prior to the application of Denso tape. Can also be used as a rust preventative for screw threads, valve spindles, wire ropes etc. and temporary protection on exposed metal.

Denso Profiling Mastic

A lightweight, non-setting self supporting mastic is used to seal and profile, voids, flanges and fittings, before Denso Tape is applied. Weight for weight it will fill three times the volume filled by other brand mastics which means Denso Profiling Mastic can provide large savings in cost.

Denso Densyl Mastic

Densyl Mastic is used to build up and soften the profile of mechanical joints, flanges fittings and valves to be protected to eliminate voids beneath the subsequent application of Denso Tape.

Denso Self-Adhesive PVC Tape

A tough self-adhesive PVC tape used for over wrapping Denso Tape when additional mechanical protection is required or where physical contact is likely. Uses include: tie rods, cables, plastic coated steel service pipes.
