

SEASHIELD 70™

DURABLE FIBERGLASS WRAP SYSTEM FOR STEEL,
CONCRETE & TIMBER PILES

SUITABLE FOR:

- Wharf Piles
- Riser Pipes
- Dock Piles
- Jetty Piles
- Support Members, Bracing and Brackets
- Exposed Piping in Splash and Intertidal Zones
- Piles of Most Any Shape and More

PETROLATUM TAPE & GLASS OUTERWRAP PROTECTION SYSTEM FOR STEEL, CONCRETE AND TIMBER PILES

Conforms to steel, concrete and wood piles better than other systems, while providing a strong outer layer that is less vulnerable to damage and corrosion. The system is ideal for environments where conditions are too severe for paint systems, epoxies and other conventional forms of protection.

FEATURES:

- Prevents infestation of marine borers
- Can accommodate irregular shaped piles
- Provides abrasion and puncture resistance in aggressive coastal environments
- Simple design allows for easy installation
- Adds years of service life to piles
- Long, maintenance-free service life
- Proven 90 year history of sealing out oxygen
