

# DENSO<sup>®</sup> PRODUCT GUIDE

## LEADERS IN CORROSION PREVENTION

### CORROSION PREVENTION PRODUCTS:

- Protal™ Liquid Coatings
- SeaShield™ Marine Systems
- Petrolatum Wax Tapes
- Bitumen & Butyl Tapes
- Sealing & Molding Products
- Archco™ Coatings & Linings
- Coal Tar Epoxies and more

## PROTAL™ LIQUID COATINGS

### Full Line of Protective Pipeline Coatings

Denso's pipeline coatings can be applied by hand, spray or cartridge gun. We offer a full range of fast cure, high build epoxies for a variety of above and below ground corrosion prevention applications.

## PETROLATUM TAPES

### High Performance Petrolatum Wax Tapes

Denso's Petrolatum Wax Tapes have a long history, with Denso Tape being the first one developed in 1929. For over 90 years these high-performance petrolatum tape products have provided corrosion prevention for above ground, below ground, and underwater applications.

## SEALING & MOLDING

### Self Supporting Molding Compounds

Self-supporting molding compounds provide a smooth profile on irregular surfaces, such as flanges and couplings. These products are used in conjunction with Denso's Petrolatum Tape Systems which require minimal surface preparation (SSPC SP 2-3) and contain no VOC's.

## BITUMEN & BUTYL TAPES

### High Performance Pipeline Tapes

High performance adhesive tapes for above ground and below ground pipeline corrosion protection used on weld joints, fittings, and fabrication. A complete line of adhesive tapes ranging from 10 to 70 mils in thickness.

## TAPE PRIMERS

### Primers

Denso Tape Primers are used to displace moisture, pacify the surface and aid in the adhesion of the tape system.

## PROTECTIVE OUTERWRAPS

### Mechanical Protection

Protective Outerwraps that are used to protect softer coatings and tapes in aggressive applications.

## SEASHIELD™ MARINE SYSTEMS

### Pile Protection System

A full range of steel, concrete, and timber pile rehabilitation systems. Our products include petrolatum wax tapes, fiberglass jackets, epoxy grouts, cementitious grouts, underwater epoxies and more.

## ARCHCO™ COATINGS & LININGS

### Tank Coatings & Linings and Pipe Linings

Archco Coatings and Linings are used for corrosion prevention in crude, gas, diesel, ethanol, and petrochemical tanks, chime areas, heat exchangers, knock out drums, bund areas, pressure vessels, and internal pipes and valves.

## ROAD PRODUCTS

### Road Repair and Maintenance Products

Denso Road and Maintenance products provide a seal to asphalt to steel and/or concrete surfaces. Can be used for new road construction and maintenance, as well as bridge repair, parking lots, railways and airport runway applications.

## PROTAL™ COAL TAR EPOXIES

### Coal Tar Epoxy & Coal Tar Replacement (CTR)

High build coal tar epoxies which can be applied up to 26 mils wet (19 mils dry) in one coat. These products are manufactured in a standard version, a low VOC version and a coal tar free version.

Denso North America is a subsidiary of Winn & Coales International, a leading manufacturer of anti-corrosion coatings and tapes. Winn & Coales was originally established as a business in London, England in 1883 and the first petrolatum tape manufactured in the UK was Denso tape, manufactured under license by Winn & Coales (Denso) Limited. Denso tape was developed over 90 years ago for the "Long Life Protection" of buried steel pipelines against corrosion.
