

### Project Data

<b>Location</b>	Northeast Pennsylvania
<b>Completed</b>	2016 - 2017
<b>Project Type</b>	Gasoline Storage Tank Lining
<b>Products / Systems Used</b>	Archco™ 400HB

### Project Details

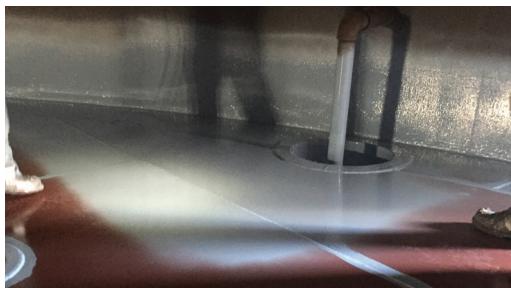

The Archco high performance tank linings are on the approved list of suppliers for this major pipeline company in the Northeast. This pipeline company has chosen to use the Archco 400HB system on numerous projects in the Northeast in crude, gasoline and jet fuel service.

The Archco 400/400HB has been tested by a qualified major independent lab, and passed all of the specified tests that are standard to the petrochemical and coating industry for the owners' commodities.

Denso meets the needs of the owner and the contractors by providing coatings that are easy to apply and meet the industry requirements for performance. NACE certified technical service representatives are available when, and if, the need arises for assistance.

### Benefits

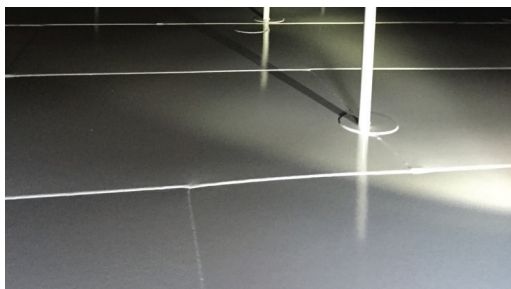

- Excellent adhesion
- Good flexibility and impact resistance
- Good abrasion resistance
- Excellent chemical resistance

Spraying Archco™ 400HB over the 400 primer.

Finished Archco™ 400/400HB tank lining.
