

# PRECAST AND WATER-TIGHT SEALING PROTECTION PRODUCTS

## INFRASTRUCTURE & MUNICIPAL CONCRETE SEALING SOLUTIONS

### SUITABLE TO SEAL:

- Box Culverts
- Manholes
- Concrete Chambers
- Manhole Joints
- Concrete Pipe Joints and More

## SEALING PRECAST STRUCTURES TO PREVENT INFILTRATION, ENHANCE DURABILITY, AND IMPROVE OVERALL STRUCTURAL INTEGRITY.

Water-tight sealing on concrete precast and manholes is crucial to prevent water infiltration, which can weaken the structural integrity and lead to costly repairs. It also protects against contamination and ensures the longevity and functionality of the infrastructure.

### FEATURES:

- Provides a flexible and watertight seal
- Prevents liquid, gas and contaminant infiltration
- Easy on-site field application
- Compatible with various concrete and manhole type structures
- Non-shrinking materials that provide consistent sealing for any size or shape
- Excellent adhesion to provide a long-lasting durable bond to concrete substrates.
